

WT30 (.30 Cal)

WT30 Suppressor: Elite Performance, Precision, and Silence

The **WhisperTeck WT30** is a state-of-the-art suppressor engineered for .30 caliber platforms, delivering zero POI shift, exceptional flash suppression, substantial recoil reduction, minimal gas blowback, and unparalleled sound attenuation. Designed for shooters who demand the best, the WT30 combines cutting-edge technology with rugged durability to elevate your shooting experience.

Advanced Engineering for Unmatched Silence

Leveraging exclusive access to the world's most sophisticated particle and gas flow simulation software, powered by top-tier supercomputers, WhisperTeck perfected the WT30's ability to manage muzzle blast. By precisely stripping hot gases from the projectile, the WT30 cools and reduces pressure for a controlled release, achieving industry-leading sound suppression. This advanced design minimizes backpressure, optimizes heat management for enhanced durability, and often enhances weapon accuracy, ensuring every shot stays on target.

Premium Durability with Lightweight Design

Constructed from Ti 64V ELI (Grade 23) titanium alloy, a material trusted in aerospace, medical, and marine applications for its high strength-to-weight ratio and superior corrosion resistance, the WT30 is built to withstand the toughest conditions while remaining lightweight. This ensures lifelong reliability without compromising portability.

Key Features

- Zero POI Shift: Maintains pinpoint accuracy with no point-of-impact deviation.
- Superior Flash Reduction: Virtually eliminates muzzle flash for enhanced stealth in low-light scenarios.
- Significant Recoil Reduction: Reduces felt recoil for faster, more controlled follow-up shots.
- Minimal Gas Blowback: Limits gas exposure to the shooter for greater comfort and safety.
- Whisper-Quiet Performance: Cutting-edge gas management delivers exceptional sound reduction.
- Universal Compatibility: HUB 1.375 x 24 compatible, seamlessly integrating with all HUB QD devices, includes WhisperTeck's proprietary direct thread brake.

Why Choose the WT30?

The WhisperTeck WT30 is the pinnacle of suppressor technology, blending science-driven design with real-world performance. Its lightweight titanium construction, universal compatibility, and ability to enhance accuracy make it the ultimate choice for .30 caliber firearms. Experience unmatched silence, precision, and durability with the WT30—engineered to redefine what a suppressor can achieve.

Caliber: 7.62mm 30 Cal
Construction: Ti64V ELI Grade 23
Diameter: 1.75" / 44.45mm
OAL (w/o mount): 7" (178mm)
Weight (w/o mount): 13.2 oz
Attachments: HUB, Direct Thread, QD
Colors available: Glacier Black, FDE,
OD Green, Sniper Grey
