

WT9 (9mm)

WT9 Pistol Suppressor: Science Meets Unrivaled Performance

The **WhisperTECK WT9** is a masterpiece of engineering, blending cutting-edge science with exceptional performance to deliver a pistol suppressor that redefines excellence. Designed for shooters who demand precision, durability, and whisper-quiet operation, the WT9 is the ultimate choice for both tactical and recreational use.

Advanced Engineering for Superior Silence

WhisperTECK harnessed the power of the world's most advanced particle and gas flow simulation software, running weeklong simulations on top-tier supercomputers. This expertise enables the WT9 to expertly manage muzzle blast, stripping hot gases away from the projectile to progressively cool and reduce pressure. The result? Industry-leading sound suppression with minimal backpressure, superior heat management, and a design that enhances durability. Most impressively, the WT9 not only preserves your weapon's accuracy but often improves it, ensuring every shot hits its mark.

Compact, Lightweight, and Versatile

The WT9 sets the standard for 9mm pistol suppressors with its sleek, innovative design:

- **Smallest Diameter 9mm Suppressor:** The WT9's ultra-slim profile ensures compatibility with most standard-height handgun sights, maintaining your sight picture without compromise.
- **Lightest Booster/Nielsen Device:** Featuring the smallest and lightest Booster/Nielsen device available, the WT9 ensures reliable cycling where others fall short.
- **Modular Length Options:** Choose between a compact 4.81" for maximum stealth and dB reduction or an 8.19" hearing-safe tactical configuration, offering unmatched versatility.
- **Premium Materials:** Crafted with high-purity Grade-23 Ti64V ELI cores and other advanced components, the WT9 combines lightweight construction with rugged durability.

Why Choose the WT9?

- **Ultra-Quiet Performance:** Advanced gas management delivers exceptional sound suppression.
- **Enhanced Accuracy:** Precision engineering often boosts your weapon's accuracy.
- **Compact & Lightweight:** Slim design and high-grade titanium ensure portability without sacrificing strength.
- **Versatile Configurations:** Modular lengths for stealth or tactical applications.
- **Reliable Operation:** The lightest Booster/Nielsen device ensures flawless performance.

The WhisperTECK WT9 is more than a suppressor—it's a game-changer. Experience the perfect fusion of science, silence, and precision. Elevate your shooting with the WT9 today.

Caliber: 9mm
Construction: Ti64V ELI Grade 23
Diameter: 1.125"
OAL (w/ booster): 4.81" or 8.19"
Weight: 4.2oz or 5.11oz
Attachments: Booster or Direct Thread
Colors available: Glacier Black, FDE, OD Green, Sniper Grey
